

CARPET TECHNOLOGIES

A selection of carpets that can be woven with the ALPHA 500 SINGLELOOP.
For the complete weave structure catalogue, please contact our sales team.

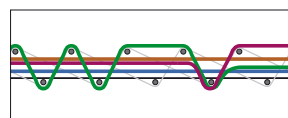

LOOP

Loop carpet that can be produced in woven-through technique as well as in not woven-through technique.

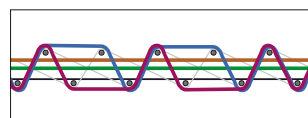

LOOP STRUCTURE

Loop carpet with different effects like pattern on the ground or loops over more wefts.

SISAL

Sisal-look carpet with different floating effects over one or more wefts, preferably woven with thick BCF yarns.

REVERSE

SISAL-look carpet, both sides of which can be used; the back is the negative of the face.
