

STÄUBLI ELECTRICAL CONNECTORS STATEMENT REGARDING CONFLICT MINERALS

Dear Sir or Madam,

On August 22, 2012, the U.S. Securities and Exchange Commission (SEC) approved a conflict minerals rule as mandated by the Dodd-Frank Wall Street Reform and Consumer Protection Act. The rule imposes new supply chain reporting requirements on publicly traded companies to promote transparency and consumer awareness regarding the use “conflict minerals” (specifically the metals tantalum, tin, tungsten and gold) in their products.

The new reporting requirements are based on concerns that revenues obtained from mining and transport of conflict minerals finance the ongoing conflict in the Democratic Republic of Congo (DRC) and surrounding countries and the resulting humanitarian crisis.

Stäubli Electrical Connectors has reviewed the existing supplier base and can confirm that there is no indication that any Stäubli Electrical Connector products contain conflict minerals from countries covered by the definition of SEC.

In situations customer require detailed information on Stäubli Electrical Connectors and its supplier’s compliance to the Conflict Minerals Resolutions, Stäubli will provide a Conflict Mineral Reporting Template.
